

Instructions for Creating the Halo Sizing Ruler:

1. Cut along the outline of the 'Halo sizing ruler' using scissors
2. Cut along the 3 dashed lines from one end of the paper towards the other end, **but not all the way** across; leave the last 1" uncut.
3. Make two folds along the blue lines in each of the 3 corners to create a single sizing ruler. If desired, use tape to secure the 3 folds.

Instructions for Measuring your Dog:

1. Wrap the Sizing Ruler around the front of your dog's neck
2. Tighten the ruler such that you can fit just two fingers between the ruler and your dog's neck
3. Determine the strap size required based on the associated size shown on the ruler
